

To Whom It May Concern:

It is my pleasure in writing to whole-heartedly recommend Sarah Goodman as a missionary to the Amazon Basin in Brazil. God has burdened her heart to reach the people of the Amazon with the Gospel and to work with a church plant team in this vast country.

Sarah has extensive on-the-field training while serving in her church in the United States and traveling with several mission teams in the Amazon Basin. She has furthered her training through Bible college and Nursing School to more effectively reach the remote villages where medicine opens the door to present the Gospel.

In a world where hearts are hardened and laborers are few, it is encouraging to find a servant with a sensitive spirit and a desire to follow the Lord. These are exactly the traits I see in Sarah. She has been a blessing wherever she has served and has captured the hearts of the people. **All of these qualities make Ms. Goodman one of the best missionaries to support.**

As her Field Director, I ask you to graciously consider adding her to your missions family and partner with her to serve the Lord on this needed field. Please do not hesitate to call me if you have any questions concerning this missionary.

Your servant in Christ,
